

Bartu Harmandagli

Driven by a passion for shaping future mobility, I am an **automotive** and **transport designer** from **Cyprus** who enjoys turning bold ideas into meaningful, real world experiences. At **24**, I hold a First Class Honours degree from **Coventry University** and a Master's in Intelligent Mobility from the **Royal College of Art**, with professional experience collaborating with **Volkswagen Group's** Future Center Europe and **TVS Motor Company**.

“I learned automotive design from the underside of a car. Everything since has been building on that.”
